

Derry Medical Arts Facility

Derry, New Hampshire

This state-of-the-art 90,000 SF outpatient facility was fully tenanted during design and the construction delivery was a fast-track construction method with a close relationship between owners, contractor and design team. Assemblies and finishes are selected to meet stringent budget, fabrication and green design criteria. The philosophical focus is on patient comfort, way-finding and quality-of-care solutions enabled by the flow-of-work efficiency of the facility.
